

Hadrien VILLEMONTAIX

Engineer-manager student, Creative Technology speciality
Looking for a 6 months internship beginning in February

Currently in my 5th year of a dual-degree program, I am specializing in a **Master of Science** focused on **innovation**, alongside management studies in **Marketing** and **Corporate Finance**. This program prepares me for **project management**, merging **design thinking** with **technical expertise**.

Driven by a **strong collective mindset**, I aspire to join a team that combines innovation, design, and scientific knowledge to develop thoughtful, environmentally-conscious products aimed at improving the user experience.
